

Thank You ~ and ~ Dedication

We would like to take the time to thank everyone who told us their story, lent us their books, and shared their memories with us to put this booklet together. This booklet was a collage of the past Town of Morrison 1855-1980 booklet with addition of updated information of people, businesses, and events of the past 25 years. We dedicate this book again to the memory of the families and individuals who settled in the township of Morrison since 1855. We thank everyone for their help.
